Nick Grant
President and CEO

Duncan Gilmour CFO and Treasurer

Forward-Looking Statements

This presentation includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. These statements do not convey historical information but relate to predicted or potential future events and financial results, such as statements of our plans, strategies and intentions, or our future performance or goals, that are based upon management's current expectations. Our forward-looking statements can often be identified by the use of forward-looking terminology such as "believes," "expects," "intends," "may," "will," "should," "plans," "projects," "forecasts," "outlook," "anticipates" or similar terminology. These statements are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements.

Such risks and uncertainties include, but are not limited to, any mentioned in this presentation as well as our ability to realize the potential benefits of acquisitions or dispositions and the successful integration of any acquired operations; our ability to grow our presence in the life sciences, industrial and international markets; the success of our strategy to diversify our business by entering markets outside the semi market; the impact of the COVID-19 pandemic on our business, liquidity, financial condition and results of operations; indications of a change in the market cycles in the Semi Market or other markets we serve; changes in business conditions and general economic conditions both domestically and globally; changes in the demand for semiconductors; our ability to borrow funds or raise capital to finance potential acquisitions; changes in the rates and timing of capital expenditures by our customers; and other risk factors set forth from time to time in our Securities and Exchange Commission filings, including, but not limited to, our annual report on Form 10-K for the year ended December 31, 2020. Any forward-looking statement made by us in this presentation is based only on information currently available to us and speaks to circumstances only as of the date on which it is made. We undertake no obligation to update the information in this presentation to reflect events or circumstances after the date hereof or to reflect the occurrence of anticipated or unanticipated events.

Non-GAAP Financial Measures

In addition to disclosing results that are determined in accordance with GAAP, we also disclose non-GAAP financial measures. These non-GAAP financial measures consist of adjusted net earnings (loss), adjusted net earnings (loss) per diluted share, adjusted EBITDA, adjusted EBITDA margin, and free cash flow. Adjusted net earnings (loss) is derived by adding acquired intangible amortization, adjusted for the related income tax expense (benefit), to net earnings (loss). Adjusted net earnings (loss) per diluted share is derived by dividing adjusted net earnings (loss) by diluted weighted average shares outstanding. Adjusted EBITDA is derived by adding acquired intangible amortization, interest expense, income tax expense, depreciation, and stock-based compensation expense to net earnings (loss). Adjusted EBITDA margin is derived by dividing adjusted EBITDA by net revenue. Free cash flow is derived by subtracting capital expenditures from net cash provided by operations. These results are provided as a complement to the results provided in accordance with GAAP. Adjusted net earnings (loss) and adjusted net earnings (loss) per diluted share are non-GAAP financial measures presented to provide investors with meaningful, supplemental information regarding our baseline performance before acquired intangible amortization charges as this expense may not be indicative of our current core business or future outlook. Adjusted EBITDA and adjusted EBITDA margin are non-GAAP financial measures presented primarily as a measure of liquidity as they exclude non-cash charges for acquired intangible amortization, depreciation and stock-based compensation. In addition, adjusted EBITDA and adjusted EBITDA margin also exclude the impact of interest income or expense and income tax expense or benefit, as these expenses may not be indicative of our current core business or future outlook. Free cash flow is a liquidity measure that reflects the cash generated by the business, after the purchases of technology, capabilities and assets, that can then be used for, among other things, strategic acquisitions, investments in the business, and funding ongoing operations. These measures may be useful to an investor in evaluating the underlying operating performance of our business. The non-GAAP financial measures presented in this presentation are used by management to make operational decisions, to forecast future operational results, and for comparison with our business plan, historical operating results and the operating results of our peers. Reconciliations from net earnings (loss) and net earnings (loss) per diluted share to adjusted net earnings (loss) and adjusted net earnings (loss) per diluted share and from net earnings (loss) to adjusted EBITDA and adjusted EBITDA margin, and net cash provided by operations to free cash flow, are contained in this slide presentation. The non-GAAP financial measures discussed in this presentation may not be comparable to similarly titled measures used by other companies. The presentation of non-GAAP financial measures is not meant to be considered in isolation, as a substitute for, or superior to, financial measures or information provided in accordance with GAAP.

inTEST Corporation (NYSE American: INTT)

A global supplier of innovative test and process solutions for use in manufacturing and testing across a wide range of markets, including automotive, defense/aerospace, industrial, life science, semiconductor and telecommunications.

Nick Grant
President and CEO

- Appointed as President and CEO August 24, 2020
- ABB SVP Americas Region Industrial Automation Measurement & Analytics Division
- AMETEK VP & GM Materials Analysis Division (Test & Measurement)
- Emerson Electric (various roles)
- MBA (Xavier University) / BS Physics (Northern Kentucky University)

Duncan GilmourTreasurer and CFO

- Appointed June 14, 2021
- ABB Americas Hub Controller Industrial Automation Measurement & Analytics Division
- Tyco International / Johnson Controls (various roles)
- Coopers & Lybrand / PricewaterhouseCoopers (U.S. and U.K.)
- BAcc Economics and Accounting (University of Glasgow) / Chartered Accountant (ICAS)

Vision

To be the Supplier of Choice for Innovative Test and Process Technology Solutions

Mission

Leverage our Deep Industry Knowledge & Expertise to Develop and Deliver High Quality, Innovative Customer Solutions and Superior Support for Complex Global Challenges

Markets Served

Multimarket:

Automotive, Defense/Aerospace, Industrial, Life Sciences, Telecom

Semi Market:

Semiconductor Manufacturers – End Users (Test Facilities, Labs, Production Floor)

ATE Equipment Suppliers – OEMs

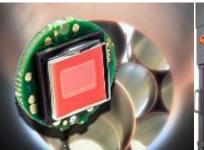

Product and Industry Expertise

Solve technical challenges others can't - thermally, mechanically, electronically

Temperature Forcing Systems | Thermal Chambers | Low-temp Chillers
Ultra-cold Storage Solutions | Induction Heating Systems | Digital Imaging Solutions
ATE Test Head Manipulators, Docking, and Interfaces

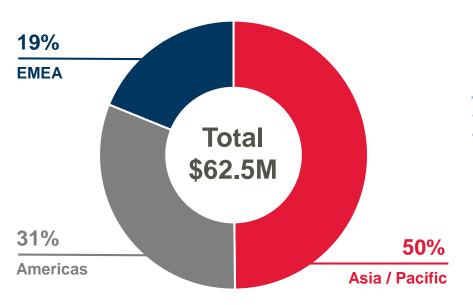

Global Presence

2021 YTD Net Revenue by Region

Manufacturing

Sales, Service, Support

Direct Sales Teams

Blue-Chip Customer Base

5-Point Strategy

Growth Focus

Innovation Focus

Customer Focus

Standardization & Scalability

Z-Sciences Advances Core Growth Strategies

Z-Sciences Corp. develops and sells high-performance biomedical refrigerators and freezers that meet versatile applications, including ultra-cold storage solutions for biological sample banks, blood safety, vaccine safety, medical supplies and reagent safety.

Strategic Rationale

Buy versus make decision for fast penetration and better return on capital

Access to ultra-cold storage technology; gain a presence in the medical cold chain market

Expansion into Life Sciences industry (Pharma/Bio-Pharma)

Adding engineering know-how and customer base

Ultra cold storage market estimated at ~\$500 million with CAGR >7% Target niche addressable market est. at \$200 million⁽¹⁾

- Closed October 6, 2021
- Based in Montreal
- Products: ASPs of ~\$5,000 to ~\$20,000
- Manufacturing: outsourced to low-cost region

Bio Freezers (-40°C)

Sample Security Refrigerators (+4°C)

Videology Expands Process Technology Offerings

Videology Imaging Solutions designs and manufactures industrial-grade circuit board mounted digital imaging solutions and related devices, systems and software for OEM custom solutions.

Strategic Rationale

Low-cost entrance and significant growth potential in large, fragmented space: $SAM > $5B \text{ with } > 10\% \text{ CAGR}^{(1)}$

Process technology that enhances automation capabilities

Drives further market diversification into Life Sciences and Industrial

Expands global presence (~40% of revenue from Europe)

Leverage existing infrastructure; potential technology synergies

\$0.05 per diluted share accretive in year one (net of acquisition expenses of \$0.03)

- · Closed October 28, 2021
- · Headquartered in Greenville, RI
- · European operations in Eindhoven, NL
- Total employees: ~40
- TTM Revenue: ~\$10 million

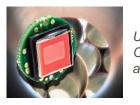

Example Applications

Ophthalmology markets for fundus cameras (taking an image to examine the inner eye)

Handheld Spectrometer used to classify materials or substances in scientific labs

Used to inspect pipes of all diameters from large Oil and Gas pipes to smaller Fiber Optic applications or Medical/Intra-Oral Endoscopes

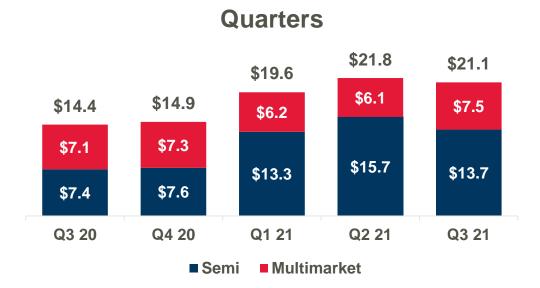

inTEST Corporation

Financial Overview

Revenue

(\$ in millions)

Q3 revenue up \$6.7 million, or 46%, YoY Multimarket:

- Ongoing, broad-based recovery within industrial sectors
- Benefited from new product introductions and the opening of trade shows
- EV market continues to gain traction

Semi Market:

 Continued strong global demand for semiconductors

Gross Profit and Margin

(\$ in millions)

Q3 gross profit increased \$3.9 million YoY

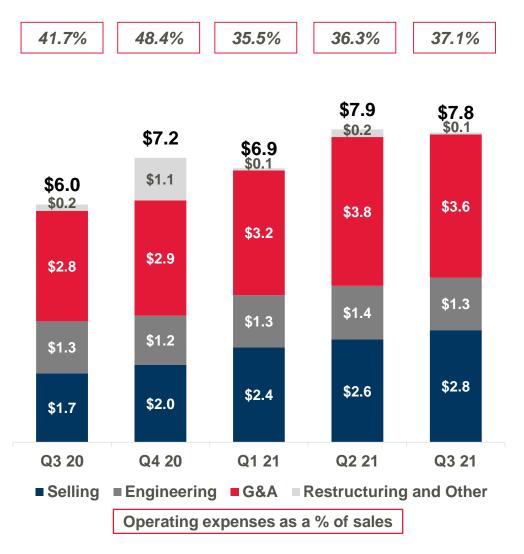

- 450 basis point margin expansion
- Reflects higher volume, benefits of restructuring and improved product mix

Sequential margin impacts:

- Higher component material costs not yet fully covered by price improvements
- Changes in product mix
- Less favorable absorption of fixed manufacturing costs

Operating Expenses

Effectively managing costs while investing for growth (Q2 vs Q3)

- Investing in people and marketing to support 5-Point Strategy
- ~\$300 thousand in expenses related to M&A activities
- More than offset by non-recurring CFO transition costs incurred in Q2 21

Expecting operating expenses of \$9.0 million to \$9.2 million in Q4 21

- Includes ~\$400 thousand of amortization related to acquisitions (~\$100 thousand incremental)
- ~\$700 to \$800 thousand of incremental operating expenses from acquired businesses
- ~\$600 thousand of deal costs (~\$300 thousand incremental sequentially)

Profitability in Line with Expectations

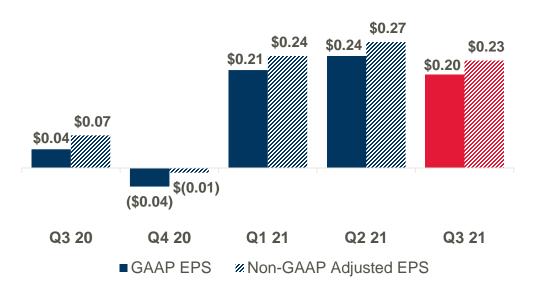

Focused on strengthening earnings power

Strong cash generation

Adjusted EPS reflects ~\$300 thousand of acquired intangible amortization

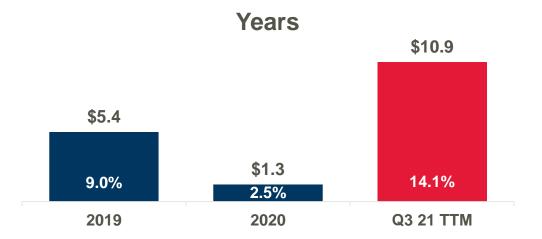

Expect effective tax rate in 2021 to range from 14% to 16%⁽¹⁾

Earnings per Diluted Share⁽²⁾

Adjusted EBITDA and Margin⁽²⁾ Quarters \$4.0

⁽¹⁾ Tax rate expectation provided November 5, 2021

⁽²⁾ Adjusted Net Earnings per diluted share and Adjusted EBITDA are non-GAAP financial measures. Further information can be found under "Non-GAAP Financial Measures." See also the reconciliations of GAAP financial measures to non-GAAP financial measures that accompany this presentation.

Capital Structure and Cash Flow

(\$ in millions

Capitalization								
		9/30/21	12	2/31/20				
Cash and cash equivalents	\$	18.7	\$	10.3				
Total debt		-		-				
Total net debt		-		-				
Shareholders' equity		53.7		44.8				
Total capitalization	\$	53.7	\$	44.8				

Cash Flow	Th	ree Mor	YTD			
	9/	30/21	9/	30/20	9/	30/21
Net cash provided by operating activities (GAAP)	\$	4.3	\$	2.3	\$	8.1
Capital expenditures		(0.1)		(0.3)		(0.6)
Free cash flow (FCF) ⁽¹⁾ (Non-GAAP)	\$	4.1	\$	2.0	\$	7.5

Generated strong cash from operations of \$4.3 million in the third quarter and \$8.1 million year-to-date

Executed new five-year credit agreement in October 2021

- Includes \$25 million non-revolving delayed draw term loan and \$10 million revolving credit facility
- New agreement replaced previous \$10 million line of credit facility

Subsequent to quarter-end, used \$12 million of new credit facility and \$0.5 million in cash to finance Z-Sciences and Videology acquisitions

Orders and Backlog

(\$ in millions)

Continued robust demand, though trends have moderated from recent historical highs

- Secured new orders in targeted EV and cannabis markets
- Focused on working with OEMs to support semi demand

Approximately 75% of September 30, 2021 backlog is expected to convert to sales in Q4 21

Outlook and Perspective

Focused on further market differentiation and incremental growth and profitability

- Integrating newly acquired businesses
- New product development efforts
- Robust pipeline of new customer opportunities

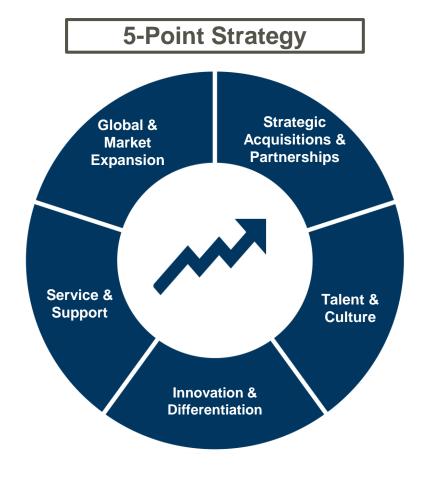

Fourth Quarter 2021 Outlook⁽¹⁾

Net revenue: \$21.5 million to \$22.5 million

• Gross margin: Consistent with prior quarter

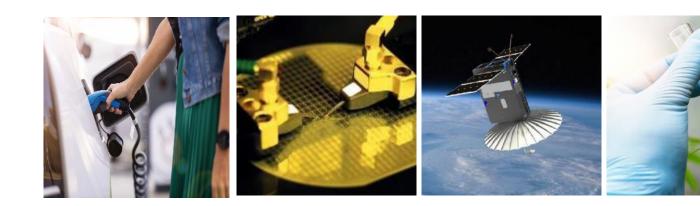

• EPS (GAAP): \$0.10 to \$0.14

Adjusted EPS (Non-GAAP): \$0.14 to \$0.18

Thermal Segment: Growth Applications in Emerging Markets

Electric Vehicles

Wide-ranging induction heating solutions for heating metal and plastic parts in the manufacturing processes of electric vehicles

Cannabis Extraction

Broad chiller solutions used in THC and CBD extraction processes where it's critical to cool hydrocarbons or ethanol to ultra-low temperatures (-60°C to -90°C)

Capable of chilling 100
Gallons of Ethanol to -70°C in
Under 30 Minutes

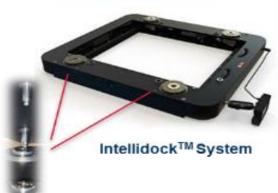

EMS Segment: Organic Growth through Innovation

Automated Manipulators + Docking

- 1st fully automated, fully featured ATE Manipulator
 - Auto positions the test head
 - Unmatched precision and accuracy
- Automated, high precision docking system for ATE testers
 - Intelligent Pin/Cup design
 - Automatic latching feature

Intelligent Test Cell

Reduces Downtime

 Prevents operator from damaging the system due to error or poor setup

Improves Quality

 Better manage rapidly changing production and process sequencing

Increases Productivity

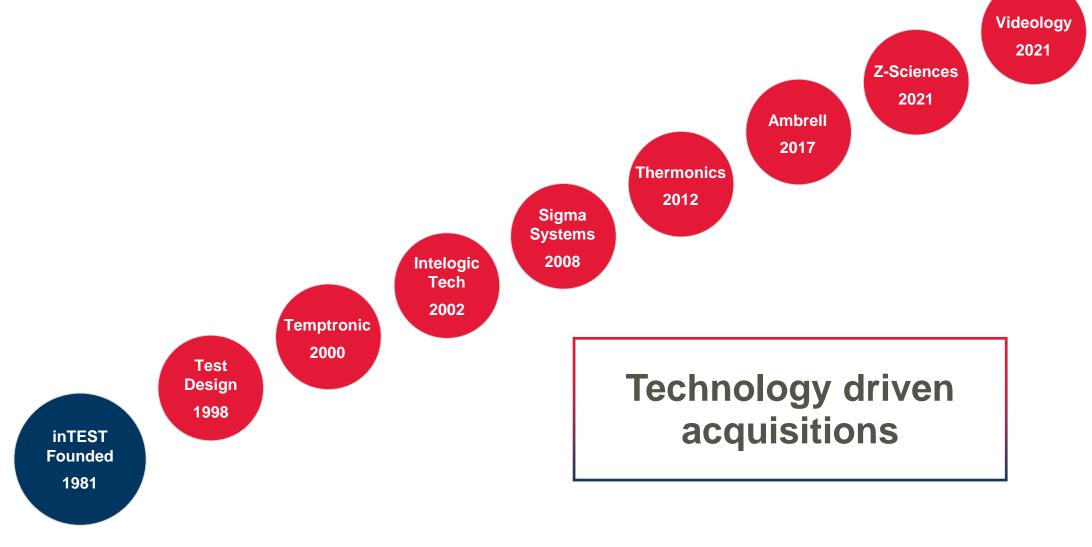

- Increase throughput, minimize waste and reduce errors
- Simplify machine operation and reduce setup time
- Optimize and create predictable and repeatable production setup
- ✓ Improve machine utilization and ergonomics

Enhances Safety

✓ Enhance operator interaction with test cell
