Forward-looking Statements and Key Performance Metrics

Forward-Looking Statements

This presentation includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. These statements do not convey historical information but relate to predicted or potential future events and financial results, such as statements of the Company's plans, strategies and intentions, or our future performance or goals, that are based upon management's current expectations. These forward-looking statements can often be identified by the use of forward-looking terminology such as "believe," "continue," "expects," "guidance," "may," "outlook," "plan," "potential," "forecasts," "target," "estimates," or similar terminology. These statements are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such

statements. Such risks and uncertainties include, but are not limited to, any mentioned in this presentation as well as the Company's ability to execute on its Vision 2030 Growth Strategy, realize the potential benefits of acquisitions and successfully integrate any acquired operations, grow the Company's presence in its key target and international markets, manage supply chain challenges, convert backlog to sales and to ship product in a timely manner; the success of the Company's strategy to diversify its markets; the impact of inflation on the Company's business and financial condition; indications of a change in the market cycles in the semi market or other markets served; changes in business conditions and general economic conditions both domestically and globally including rising interest rates and fluctuation in foreign currency exchange rates; changes in the demand for semiconductors;

access to capital and the ability to borrow funds or raise capital to finance potential acquisitions or for working capital; changes in the rates and timing of capital expenditures by the Company's customers; and other risk factors set forth from time to time in the Company's Securities and Exchange Commission filings, including, but not limited to, the Annual Report on Form 10-K for the year ended December 31, 2024. Any forward-looking statement made by the Company in this presentation is based only on information currently available to management and speaks to circumstances only as of the date on which it is made. The Company undertakes no obligation to update the information in this presentation to reflect events or circumstances after the date hereof or to reflect the occurrence of anticipated or unanticipated events, except as required by law.

Key Performance Metrics

In addition to the non-GAAP measures described on the next slide, management uses orders and backlog as key performance metrics to analyze and measure the Company's financial performance and results of operations. Management uses orders and backlog as measures of current and future business and financial performance, and these may not be comparable with measures provided by other companies. Orders represent written communications received from customers requesting the Company to provide products and/or services. Backlog is calculated based on firm purchase orders we receive for which revenue has not yet been recognized. Management believes tracking orders and backlog are useful as they are often leading indicators of future performance. In accordance with industry practice, contracts may include provisions for cancellation, termination, or suspension at the discretion of the customer. Given that each of orders and backlog are operational measures and that the Company's methodology for calculating orders and backlog does not meet the definition of a non-GAAP measure, as that term is defined by the U.S. Securities and Exchange Commission, a quantitative reconciliation for each is not required or provided.

Non-GAAP Financial Measures

In addition to disclosing results that are determined in accordance with generally accepted accounting practices in the United States ("GAAP"), we also disclose non-GAAP financial measures. These non-GAAP financial measures consist of adjusted net earnings, adjusted earnings per diluted share ("adjusted EPS"), adjusted EBITDA, and adjusted EBITDA margin. The Company defines these non-GAAP measures as follows:

- Adjusted net earnings is derived by adding acquired intangible amortization, acquired inventory step-up expense, and restructuring costs adjusted for the related income tax expense (benefit), to net earnings.
- Adjusted earnings per diluted share ("adjusted EPS") is derived by dividing adjusted net earnings by diluted weighted average shares outstanding.
- Adjusted EBITDA is derived by adding acquired intangible amortization, acquired inventory step-up expense, restructuring costs, net interest expense, income tax expense, depreciation, and stock-based compensation expense to net earnings.
- Adjusted EBITDA margin is derived by dividing adjusted EBITDA by revenue.

These results are provided as a complement to the results provided in accordance with GAAP. Adjusted net earnings and adjusted earnings per diluted share (adjusted EPS) are non-GAAP financial measures presented to provide investors with meaningful, supplemental information regarding our baseline performance before acquired intangible amortization, restructuring costs, and inventory step-up charges as management believes these expenses may not be indicative of our underlying operating performance. Adjusted EBITDA and adjusted EBITDA margin are non-GAAP financial measures presented primarily as a measure of liquidity as they exclude non-cash charges for acquired intangible amortization, acquired inventory step-up, depreciation and stock-based compensation. In addition, adjusted EBITDA and adjusted EBITDA margin also exclude the impact of restructuring costs, interest income or expense and income tax expense or benefit, as management believes these expenses may not be indicative of our underlying operating performance.

The non-GAAP financial measures presented in this press release are used by management to make operational decisions, to forecast future operational results, and for comparison with our business plan, historical operating results and the operating results of our peers. Reconciliations from net earnings and earnings per diluted share (EPS) to adjusted net earnings and adjusted earnings per diluted share (adjusted EPS) and from net earnings and net margin to adjusted EBITDA and adjusted EBITDA margin, are contained in the tables below. Management believes these Non-GAAP financial measures are important in evaluating our performance, results of operations, and financial position. We use non-GAAP financial measures to supplement our GAAP results to provide a more complete understanding of the factors and trends affecting our business. Non-GAAP measures as presented in this presentation may differ from and may not be comparable to similarly titled measures used by other companies.

Unlocking the Potential

Vision

To be the **partner of choice** for innovative test and process technology solutions globally

Mission

Leverage our deep industry knowledge & expertise to **develop and deliver high quality innovative customer solutions** and superior support for complex global challenges

INTEST END MARKETS SERVED

■ Semi ■ Automotive/EV ■ Defense/Aero ■ Industrial
■ Life Sciences ■ Safety/Security ■ Other

- Diversified Technology Company
- Provide highly engineered solutions
- Address market-driven niche applications

InTest Investment Highlights

Strategic Market Diversification

Well positioned for growth in: Auto/EV, life sciences, defense/aerospace

Strong Financial Management

Improving margins and debt reduction

New Product Innovation and Differentiation

Delivering new solutions in high potential markets

Expanding Production Capacity

New Malaysia facility on track for future production

Strategic Acquisitions and Partnerships

History of M&A to diversify and expand business

INTEST REVENUE BY SEGMENT

WELL POSITIONED FOR GROWTH AND POTENTIAL SEMI MARKET RECOVERY

Three Technology Divisions

ELECTRONIC TEST

ENVIRONMENTAL TECHNOLOGIES

PROCESS TECHNOLOGIES

GROWTH DRIVERS PER DIVISION

ADVANCED AUTOMATED TESTING

- Semiconductor back-end recovery and growth
- Increasing Semiconductor complexity & yield pressure driving testing demand
- Electronification of end markets
- Ongoing innovation & product differentiation in test platforms

PRECISION TEMPERATURE-CONTROL AND TESTING

- High-growth markets (Defense/Aero & Ultra-Cold Applications)
- Expanding channel partnerships
- Innovation in thermal platforms
- New leadership focused on operational discipline

DIFFERENTIATED PROCESS TECHNOLOGIES

- Front-end Semiconductor demand (SiC/GaN Induction Heating)
- Diversification across verticals (Videology)
- Broad market tailwinds (Auto/EV, Industrial, Defense/Aero)
- Innovative Edge AI imaging solutions & broader integrated solutions

Focusing on Target Markets with Attractive Growth

Estimated ~\$2B Serviceable Addressable Market

Mega Trends Provide Growth Tailwinds

Technology advancements create need for innovative test and process solutions

ELECTRONIFICATION

- Advanced Driver-Assistance Systems (ADAS)
- Autonomous Vehicles
- EVs: BEVs, PHEVs, FCEVs
- E-mobility
- Industrial automation
- E-VTOLS

POWER MANAGEMENT

- SiC and GaN devices
- Electric infrastructure
- Battery storage
- Battery advancements
- AI
- Renewables

COMPLEXITY/CRITICALITY

- Advanced packaging
- Chip complexity
- System-on-a-chip
- Advanced defense systems
- Commercial space

VISION 2030 Growth Strategy

Focus Area

Revenue Growth

Profit Targets

Innovation

Global Expansion

Efficiency & Discipline

Strategic Priority

\$235–\$285 M by 2030 via organic growth + acquisitions

~20% division operating income margin;
~10% operating income margin at mid-revenue point

New product revenue to rise to 25% by 2030

Expand global footprint—EU (Alfamation), Asia (Malaysia), greater customer reach

Operational excellence, cost control, disciplined financial governance

5-POINT OPERATING SYSTEM

Leveraging Global Manufacturing Footprint

 Manufacturing

 New Locations
(2024)

- ✓ Expanding in Malaysia – “in-the-region, for-the-region strategy”
- ✓ Capitalizing on larger presence in Europe
- ✓ Exploring next region to enhance capabilities and improve customer reach

New Products Key to Accelerating Revenue Growth

Delivering innovation and solving customers' complex problems

**ENVIRONMENTAL
TECHNOLOGIES**
BENCHTOP THERMOSTREAM

**PROCESS
TECHNOLOGIES**
EKOHEAT COMPACT

**ELECTRONIC
TEST**
FLEXMEDIA FAMILY

Strategic Acquisitions Remain a Critical Element of VISION 2030 Growth Strategy

SCALE THE DIVISIONS:

Targeting \$50 million to \$60 million
of total acquired revenue

\$20 million to \$40 million in size

Roll-up or service revenue enhancing

Geographic expansion

Deepen reach in target markets

Well defined and achievable synergies

ENSURING INTEST IS BEST POSITIONED TO FOR LONG TERM GROWTH

Near Term Growth Initiatives

Building and diversifying funnel of opportunities

Widening new customer aperture

Broadening channel partner network

Accelerating new product development and time-to-market

Further penetrating target markets

Continue to institutionalize culture of operational excellence

Financial Overview

Orders and Backlog⁽¹⁾

(\$ in millions)

Sequentially, orders up 9.5%

- Auto/EV up 39.6% driven by 2027 model year program starts; Alfamation contributed \$5.6 million of orders
- Customers remain hesitant to spend
- Semi down \$2.3 million

Q2 orders up 6.0% y/y

- Strength in Auto/EV, life sciences, industrials and safety/security
- Semi down \$3.7 million

Backlog essentially flat in 1H 2025

- Approximately 50% of backlog is expected to ship beyond Q3 2025

¹ Orders and backlog are key performance metrics. Further information can be found under "Key Performance Metrics."

Revenue

(\$ in millions)

Revenue up \$1.5 million sequentially

- Increase was primarily related to semi, industrial, defense/aero, and safety/security
- Life sciences and other markets decreased compared with trailing first quarter

Q2 2025 revenue down \$5.9 million y/y

- Industrial sales saw an increase of 11%
- Semi was up 0.7%
- Auto/EV decreased \$4.9 million
- Life sciences were down \$0.8 million
- Other markets decreased \$0.6 million

Continue to diversify in target markets

Gross Profit and Margin

(\$ in millions)

Sequential margin expansion of 110 bps

- Higher volume and ongoing cost actions
- Executing tariff mitigation tactics and capturing price

Q2 gross margin of 42.6% improving 200 bps y/y

- Due to more favorable product mix
- Cost reduction efforts also benefited gross margin

Operating Expenses

(\$ in millions)

Q2 2025 operating expenses decreased \$1.0 million sequentially

- Ongoing cost reduction efforts, including the recently announced leadership transition

Y/Y, operating expenses decreased \$0.6 million

- Cost reduction efforts and reduced corporate development costs

Company is focused on prudent cost management and austerity measures

- Consolidating Videology facilities for estimated \$0.5 million annualized savings beginning in 2026
- Headcount management and cost controls

NOTE: Components may not add up to totals due to rounding.

Earnings (Loss) and Adjusted EBITDA⁽¹⁾

(\$ in millions, except per share data)

¹ Adjusted EPS, adjusted EBITDA and adjusted EBITDA margin are non-GAAP financial measures. Further information can be found under "Non-GAAP Financial Measure." See also the reconciliations of GAAP financial measures to non-GAAP financial measures that accompany this presentation.

Capital Structure and Cash Flow

(\$ in millions)

Cash Flow	Three Months Ended		Six Months Ended	
	6/30/25	6/30/24	6/30/25	6/30/24
Net cash (used) provided by operating activities (GAAP)	\$ (0.7)	\$ (5.1)	\$ 4.8	\$ (3.0)
Capital expenditures	(0.5)	(0.3)	(0.7)	(0.7)
Free cash flow (FCF) ¹ (Non-GAAP)	\$ (1.2)	\$ (5.4)	\$ 4.1	\$ (3.7)

Capitalization	6/30/25	6/30/24	12/31/24
Cash and cash equivalents	\$ 19.2	\$ 20.4	\$ 19.8
Total debt	\$ 10.1	\$ 21.1	\$ 15.0
Shareholders' equity	\$ 102.6	\$ 99.5	\$ 99.8
Total capitalization	\$ 112.7	\$ 120.6	\$ 114.8

Reduced debt by \$4.9 million during 1H 2025

- \$1.7 million in Q2 2025

Approximately \$59 million in liquidity at 6/30/2025

- Includes \$19 million in cash and cash equivalents²
- \$40 million borrowing capacity

Leverage ratio was 1.4x (debt/TTM Adj. EBITDA)¹

¹ Free cash flow and adjusted EBITDA are non-GAAP financial measures. Further information can be found under "Non-GAAP Financial Measures."

² On August 5, 2025, the Company entered into a covenant waiver agreement with its U.S. based lender through the first quarter 2026 in exchange for pledging cash equal to U.S. debt outstanding. At June 30, 2025, the Company held \$5.9 million of U.S. based debt.

Third Quarter Guidance

Expecting to deliver Q/Q Growth

- Revenue expected to be \$28 million to \$30 million
- Gross margin similar to Q2 2025
- Operating expenses of \$12.6 million to \$13.1 million
 - Excludes ~\$0.1 million in Videology and other restructuring expenses

Amortization and interest expense are expected to be similar to Q2 2025

Considerations for FY2025

- Visibility remains limited
- Continue to expect to deliver Q/Q growth through the year
- Long-term fundamentals remain intact with InTest maintaining strong market leadership in niche, high-value applications
 - Well positioned for recovery
- Pipeline is robust – customer funnel at new all-time high
 - Customer hesitation impacting project timing

Outlook excludes any potential acquisitions and incremental restructuring

Guidance provided as of August 6, 2025. The foregoing guidance is based on management's current views with respect to operating and market conditions and customers' forecasts. It also assumes macroeconomic conditions remain unchanged through the end of the year and does not take into account any extraordinary non-operating expenses that may occur from time to time. Actual results may differ materially from what is provided here today as a result of, among other things, the factors described under "Forward-Looking Statements" on slide 2.

5-POINT OPERATING SYSTEM
